FOR IMMEDIATE RELEASE

Sylvan Source Names Lawrence Dubois to Board of Directors

Scientist Joins Distinguished Roster of Directors for Ultra-Clean Water Company

SUNNYVALE, Calif., June 15, 2006 – Sylvan Source, the provider of breakthrough ultra-clean water systems, today announced that Dr. Lawrence H. Dubois has joined the company's board of directors. Dr. Dubois serves as vice president of SRI International's Physical Sciences Division, leading more than 160 scientists in developing and commercializing technologies that help solve energy, environmental, healthcare, national security, and transportation problems. As the newest member of the Sylvan Source board of directors, Dr. Dubois joins a distinguished roster of successful executives with extensive experience in technology, traditional and renewable energy, water technology, operations, and finance.

“We are delighted by Dr. Dubois' decision to join the Sylvan Source board of directors,” said Laura Demmons, founder and CEO of Sylvan Source. “The wealth of expertise represented by our board will enable us to move the company forward successfully as we develop and market solutions for increasingly critical water quality issues.”

Dr. Dubois has a distinguished career as a scientist. Before joining SRI, he served as director of the Defense Sciences Office at DARPA, and as a member of the technical staff at AT&T Bell Laboratories. He has authored more than 130 publications, holds numerous U.S. and foreign patents, and is the recipient of the Office of the Secretary of Defense Award for Outstanding Achievement and the Secretary of Defense Medal for Outstanding Public Service. Dr. Dubois earned a BS degree in chemistry from MIT and a Ph.D. in physical chemistry from the University of California, Berkeley.

Dr. Dubois completes the group of outside board members who lend critical energy, water, technology and finance expertise to Sylvan Source. Other members of the Sylvan Source board of directors include Robert J. Frankenberg, Carl Bronstein, and John Sylvia.

A member of the Silicon Valley Hall of Fame, Mr. Frankenberg is currently the chairman of Kinzan and has held top executive positions at Encanto Networks, Novell, and Hewlett-Packard. He serves as a member of the board of directors for ElectroGlas, National Semiconductor, Nuance Communications, and Secure Computing, as well as for several private companies. Widely published and a frequent speaker, Mr. Frankenberg has received numerous awards.

Mr. Bronstein formed Bronstein Ventures, a private money venture capital advisory, in 2000, where he led or participated in raising capital for numerous early-stage companies, including Sylvan Source. Prior to that he served at Merrill Lynch, Bear Stearns, Lehman Brothers, and Dakin Securities in executive roles. He holds a business economics degree from the University of California, Santa Barbara.

John Sylvia is a founding partner of Aqua International Partners, L.P., a private equity fund sponsored by the Texas Pacific Group and focused on the water and alternative energy sector. Mr. Sylvia has spent more than 20 years in finance and operations, both in the U.S. and abroad. He has served as adjunct professor at the University of San Francisco, and as chief financial officer for Cal Energy Co., where he grew market capitalization to more than \$2 billion. He earned a BS degree in finance and an MBA from Santa Clara University, California.

Sylvan Source has begun shipping its M-600 ultra-clean water system, which integrates degassing, distillation, and demisting technologies into a unique multi-step cleaning process. The M-600 is currently the only home drinking water treatment system to achieve NSF/ANSI Standard 62 certification and it is the first distillation-based, ultra-clean water treatment system to earn certification from the International Association of

Plumbing and Mechanical Officials (IAPMO). The M-600 is available through a national network of premier home appliance distributors and dealers.

About Sylvan Source

Sylvan Source delivers technically advanced ultra-clean water systems designed for residential and industrial use. Sylvan Source products produce breakthrough water quality and eliminate the use of chemicals, filters, and membranes to assure consistent water quality and delicious taste over time. Founded in 2003, the company is headquartered in Sunnyvale, California and is privately held. For more information, please visit www.sylvansource.com.
